

# Cat's Eye KC Cattery Contract

This document is part of the agreement between Cat's Eye KC Cattery

Adopter \_\_\_\_\_

Date: \_\_\_\_\_

Description of the kitten: Color \_\_\_\_\_

Male\_\_\_\_ Female\_\_\_\_

DOB: \_\_\_\_\_

Dam: \_\_\_\_\_ TICA Registered: Yes

Sire: \_\_\_\_\_ TICA Registered: Yes

Kittens from Cat's Eye KC Cattery are guaranteed to be negative for FELV and FIV. Although we do not anticipate any health issues, we highly encourage taking out the 30 day pet insurance trial.

Adopter agrees to have kitten checked by their veterinarian within 72 hours of receiving the kitten, at their cost. Should any health issue be discovered during this visit, Cat's Eye KC agrees to pay up to the pet insurance deductible of \$250.

**The Adopter agrees that in the event that a GENETIC defect is VERIFIED and DOCUMENTED by a LICENSED veterinarian, with 72 hours of kitten pickup, Cat's Eye KC agrees to a full refund.**

**Initials:** \_\_\_\_\_

Kitten will be dewormed and receive their first round of shots as deemed necessary by our vet. Adopter agrees to cover the cost of additional rounds of shots if taking possession of the kitten after they are required, as deemed necessary by our vet.

Adopter agrees that the kitten will be kept indoors at all times, that the kitten will never be declawed, that the kitten will have access to food and fresh water and that it will receive frequent and kind human attention.

Adopter agrees to have kitten spayed or neutered between 6-9 months old. Registration certificate from TICA will be provided after Cat's Eye KC receives documentation from the adopters veterinarian of said spay/neuter.

Adopter understands that "breeding rights" are prohibited under this contract.

Cat's Eye KC Cattery will offer support and advice as part of this contract.
